Career Advising Policy

This policy on career advising is reviewed at least once every two years and made available to students, parents, guardians and custodians, local post-secondary institutions and district residents. The policy is posted in a prominent location on the district's website.

The district's plan for career advising includes, providing:

1. Grade-level examples that link students' schoolwork to one or more career fields by implementing the Career Connections Learning Strategies offered by the Ohio Department of Education.
2. Career advising to students in grades 6-8, which includes participating in the OSU SHINE program, with each student traveling to University campus at least once annually to discuss academic and career pathway opportunities.
3. Additional interventions and career advising for students who are identified as at risk of dropping out of school. These include:
 - a. Identifying students who are at risk of dropping out of school using a local, research-based method with input from teachers, school counselors and other appropriate school staff.
 - b. Developing a Student Success Plan for each at-risk student that addresses both the student's academic and career pathway to successful graduation and the role of career-technical education, competency-based education and experiential learning, when appropriate.
 - c. Before a district develops a pupil's Student Success Plan, district staff will invite the student's parent, guardian or custodian to assist. If that adult does not participate in the plan development, the district will provide the adult a copy of the plan, a statement of the importance of a high school diploma and a listing of the pathways to graduation available to the student.
4. Training for employees on how to advise students on career pathways, including use of the tools available in OhioMeansJobs K-12 and other online sources provided by the district.
5. Documentation on career advising for each student and student's parent, guardian or custodian to review, as well as schools that the student may attend in the future.
6. The supports necessary for students to successfully transition from 8th Grade to their secondary destinations.
